Eclipse Acoustical Wood

Diffusers

Reflectors

Canopies

Handcrafted Eclipse acoustical wood products by Madrid are the perfect harmony of attractive, custom wood design and enhanced acoustical performance. Eclipse wood products are available as diffusers, reflectors or canopies. These striking made-to-order design elements are well-suited for an exposed structure or to augment an existing ceiling.

Madrid's Eclipse acoustical wood products are ideal for defining a space with the warmth of natural wood. Wood panels are available in a range of custom shapes, sizes, veneers and radii. Eclipse acoustical wood features a four-point anchoring system.

- Custom shapes available
- Choose from a range of sizes and veneers
- Cost-effective custom design
- Perforated options available
- Multiple radii available

Madrid makes you look good.

Specifications*:

- No added urea formaldehyde resins
- Conformance to ANSI A208.2 – industrial-grade MDF
- Conformance to ASTM D 1037
- 100% Pre-consumer Recycled Wood Fiber Content Third-party Certification
- Environmentally Preferable Product (EPP) Grademark Program CPA 2-06
- FSC material available
- May contribute to LEED Recycled Content Credits MR 4.1 and MR 4.2
- Density: 48 pounds per cubic foot
- Modulus of Rupture: 4,500 psi
- Modulus of Elasticity: 550,000 psi
- Internal Bond: 140 psi
- Hardness: 950 pounds
- Screw Holding:
Face: 230 pounds
Edge: 185 pounds
- Linear Expansion, Maximum Average: 0.30 percent
- Thickness Swell, 24-Hour Soak: 6 percent
- Finished with water based zero VOC Matt 20 finish
- Class A rated
- Acoustical performance—14 to 32 Sabins with Soundtex Backer

Sample Profiles:

Over 200 Veneer Options Available
